ASTRO LEE

astrolee.com | astro@astrolee.com | +1) 201-315-8530 | 1190 Bedford Ave, Apt 4B, Brooklyn, NY 11216

Creative Technologist building experimental tools, systems, and prototypes that explore new possibilities for creativity, interaction, and emerging media.

PROFESSIONAL EXPERIENCE

Post Doctoral Research Fellow | @ NYU Interactive Telecommunications Program | Brooklyn, NY — Aug 2025 - Present

Research emerging media systems including spatial capture, AI driven workflows, and immersive environments. Mentor graduate researchers and facilitate collaborations between artists, technologists, and cultural organizations within the NYU arts technology ecosystem.

Founder & Director | @ Astro+ Studio / Seon&Space Arts Initiative | Brooklyn, NY — Oct 2025 - Present

Founded an arts technology initiative focused on digital archiving of cultural spaces, spatial documentation, and exhibition visualization. Develop tools and workflows that help artists present installations, support proposals, and expand access to emerging media exhibition platforms.

Spatial Capture Specialist | @ HeadBox (London HQ) | New York, NY — Feb 2026 - Present

Capture high fidelity 3D documentation of architectural and interior environments using professional photogrammetry workflows. Process spatial datasets into optimized 3D models and digital environments for visualization, venue planning, and spatial documentation.

Creative Lead - Spatial Capture & Environment Reconstruction | @ Onassis ONX Studio | New York, NY — Nov 2025 - Feb 2026

Led spatial capture and reconstruction workflows for large scale studio documentation projects. Designed photogrammetry and reconstruction pipelines using RealityCapture to produce accurate digital environments and spatial archives supporting artistic production and exhibition planning.

Technical Producer | @ Lisa Jamhoury Studio x Onassis ONX | New York, NY — Aug 2025 - Oct 2025

Directed technical planning and systems integration for a media art exhibition at Onassis ONX. Coordinated installation logistics, documentation workflows, and cross disciplinary collaboration between artists, engineers, and production teams.

Computer Graphics Artist | @ Volvox Labs | Brooklyn, NY — Feb 2025 - Jul 2025

Developed procedural visual systems using Houdini for immersive installations and interactive environments. Produced optimized real time assets and simulation driven environments for large scale experiential media projects.

SKILL

Core Expertise

Spatial and Experiential Design | Spatial visualization, spatial documentation and venue capture, immersive installations, spatial capture pipelines

Design and Media Tools

Houdini, Unreal Engine, Touch Designer, Nuke, Maya, Blender
RealityCapture, MotionBuilder, Milumin, Fusion 360
Adobe Creative Suite (Photoshop, Illustrator, After Effects), Davinci Resolve Studio, Visual Studio Code, Pro Tools

Programming

VEX, Python (Maya), Javascript (p5.js, three.js), GLSL, C (Arduino)

Physical & Media Systems

DMX lighting systems, physical computing, PCB prototyping, Sensors and microcontrollers
Spatial media pipelines, film and photography workflows, Audio systems for interactive installations

HONORS & RECOGNITION

Honorary Diploma Recipient | @ New York University Commencement, Yankee Stadium — May 2025
Guest Speaker - VES Megabrain Webinar | @ Visual Effects Society (Germany, New York, Netherlands) — Oct 2024
President, Graduate Student Organization | @ NYU Tisch School of the Arts — 2024 to 2025
Signor Rossi Award Nominee | @ Cartoon Club International Festival of Animation Cinema, Rimini, Italy — Oct 2023

EDUCATION

New York University | MPS Interactive Telecommunications Program (ITP) | Brooklyn, NY — Class of 2025
Recipient of TSOA Graduate Scholarship

School of Visual Arts | BFA Computer Art, 3D Animation and Visual Effects | New York, NY — Class of 2023
Recipient of SHR Merit Scholarship
